About AgriXport India

AgriXport India brings together policymakers, industry leaders, exporters, technology providers, financial institutions, certification and quality assurance bodies, and international buyers to shape the future of India's agricultural exports.

As global markets place increasing emphasis on food safety, quality assurance, traceability and sustainability, the conference will explore how India can strengthen its export competitiveness, build trusted value chains and position itself as a preferred sourcing destination for agricultural products.

The event will facilitate dialogue, knowledge exchange and collaboration on the key enablers of export growth, including market access, technology, infrastructure, quality systems, policy support and institutional capability.

The Opportunity Ahead

India is well positioned to capitalize on emerging global opportunities, but sustaining export growth requires stronger quality systems, greater transparency, improved market access and ecosystem-wide collaboration.

Conference Focus Areas

Key areas of discussion driving India's agricultural exports and global market competitiveness.

- **Global Trade Shifts & Emerging Export Opportunities**
- **Quality, Safety and Traceability**
- **Technology & Digital Innovation**
- **Buyer Expectations and Market Access**
- **Certification and Export Readiness**
- **Supply Chain Integrity & Export Infrastructure**

Programme Highlights

A focussed and engaging programme designed to explore opportunities, share insights and shape the future of India's agricultural exports

1. Inaugural Session

India's Export Ambition

Exploring India's export vision, emerging opportunities and the strategic interventions needed to strengthen India's position in global agricultural markets

---

2. The Global Trust Imperative

Building Trust as a Gateway to Global Markets

- Evolving Buyer Expectations
- Food Safety and quality requirements
- Traceability and Transparency
- Building buyer confidence

---

3. Certification, Quality & Assurance

From Audit Compliance to Capability Building

- Certification systems and adoption challenges
- Farmer readiness and capacity building
- Training, extension and digital support
- Continuous assurance and improvement
- GlobalG.A.P. Certification systems

---

4. Technology for Trust

Enabling Compliance & Traceability at Scale

- Artificial intelligence & analytics
- Digital traceability solutions
- AgriStack and digital public infrastructure
- National-scale digital trust infrastructure

---

5. Supply Chain Integrity

Preserving Trust Across the Value Chain

- Export infrastructure and connectivity
- Post-harvest systems and logistics
- Traceability across value chains
- Infrastructure investments

---

6. Policy & Institutional Capability

Creating the Enabling Environment

- Export-readiness and policy support
- Institutional capacity building
- Public-private partnerships
- Financing export growth

Why Attend?

- **Gain insights into emerging global export opportunities and buyer expectations**
- **Connect with policymakers, exporters, buyers and industry experts**
- **Discover technologies driving quality, traceability and export readiness**
- **Learn practical approaches to farmer-level capability building**
- **Connect with key stakeholders across the agricultural export ecosystem**
- **Contribute to India's roadmap for becoming a globally trusted supplier**

Organising Partners

Synergy Technofin

Synergy Technofin is a leading agribusiness consulting firm, offering end-to-end advisory and implementation solutions. With 16+ years of experience, we specialize in technical agribusiness advisories, agri value chain analysis, market mapping, farmer engagement, business assessment, and India entry strategies, with over 250 completed advisory assignments and overseas representation.

Our approach is based on the 5F Concept—Farmers, Farms, Farming, Farm Business, and Farm Tech. Our transformational approach drives innovation, growth, and business effectiveness across all aspects of agribusiness.

About QLBS

QuantumLeap is a universal audit and assessment platform built specifically to digitise compliance processes. It has been in continuous development for over 20 years. Its core design principle is that any regulation, standard or best-practice framework can be loaded into it as an assessment scheme-without rebuilding the platform.
